CALL FOR SPONSORS

On behalf of the Organizing Committee, we are pleased to inform all interested companies that the EV4 - Extracellular Vesicle Research in Central Europe conference will be held for the first time on October 21-22, 2026, in Budapest, organized by the Hungarian Society of Experimental and Clinical Pharmacology (HUPHAR), HSEV (Hungarian Section of Extracellular Vesicles).

The EV4 Conference is a defining forum at the Central European level for extracellular vesicle research, involving leading national scientific societies. It brings together the region's top researchers, translational experts, and clinical specialists in the field. The international significance of the event is well demonstrated by the fact that it is expected to attract 120-150 participants from the leading research institutes, universities, and clinical centers across Central Europe.

We would be delighted to welcome you and your company among the sponsors who, through their participation and support, recognize the scientific importance of organizing and successfully conducting this conference.

The conference provides an excellent opportunity for you to present your products and services to both domestic and international professionals.

The event also offers an ideal setting to meet conference participants in a professional environment and discuss the latest developments, products, and knowledge.

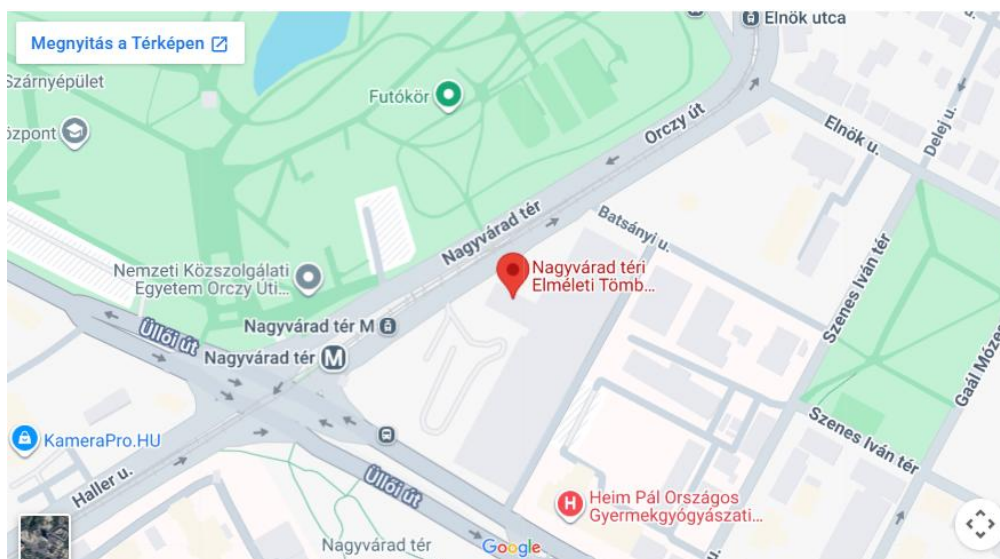

Venue:

Semmelweis University, Budapest, Hungary

NET Building
